

**AKG ACOUSTICS USA ANNOUNCES A TRADE-IN REBATE PROGRAM
FOR 700 MHZ WIRELESS MICROPHONE SYSTEM COMPONENTS
Offer Valid: March 1st 2010 through June 30th 2010**

The Federal Communications Commission (FCC) has re-appropriated the use of the 700 MHz band, used by many wireless microphones, wireless in-ear monitors, wireless production intercom systems and other professional wireless audio and video equipment, for use by public safety and commercial licensees. Under this new FCC rule, you will be prohibited from using some products operating in the 700 MHz band once the new restrictions take effect. Although this new rule does not apply to all uses of existing products and other exceptions to the new FCC rules apply, AKG Acoustics USA is providing an opportunity to trade-in your old 700 MHz system and get cash back on the purchase of a new AKG non-700 MHz band wireless system or components that comprise a system. Your 700 MHz band wireless microphone doesn't have to be prohibited, to qualify for the rebate.

Whether you're updating or replacing your 700 MHz wireless microphone system, AKG Acoustics USA is offering rebates of up to \$500 when you purchase either a new AKG wireless microphone system or a new AKG receiver and one or more new AKG transmitters from an AKG authorized dealer and you trade-in your existing 700MHz (698-806MHz) wireless system (receiver and transmitter(s)). Your trade-ins do not need to be AKG products, but they do need to be compatible components. Terms and conditions apply; read the rules for details.

Rebates apply to your new purchase of the following AKG Acoustics products.

Option 1

SYSTEMS	
Product	Rebate
WMS40 Pro	\$30
WMS40 Pro Dual	\$50
WMS40 Pro Flexx	\$50
WMS450	\$100

Option 2

Create your own "system rebate" by combining your purchase of a receiver with one or more transmitters.

RECEIVERS	
Product	Rebate
SR4500	\$250
DSR700 – 2 Channel	\$200

TRANSMITTERS	
Product	Rebate
PT4500	\$250
HT4500	\$250
DPT700	\$150
DHT700	\$150

For system rebates, you must purchase at least one receiver and at least one transmitter. You may qualify for additional transmitter rebates if (i) your transmitter purchases were made in connection with your receiver purchase; and (ii) for each additional transmitter rebate you request, you provide an additional transmitter trade-in. We are offering a like-for-like exchange. For example, if you buy one receiver and two transmitters and you trade-in one receiver and two transmitters, you qualify to receive the rebates corresponding to your receiver purchase and both rebates attributable to your two transmitter purchases.
